

## **Etnies Skatepark Lake Forest Expansion** *(Currently Under Design)*

The Etnies Skatepark of Lake Forest is already the largest free skatepark in California and has the potential of becoming the greatest in the world. The skatepark has become a destination park that attracts approximately 60,000 visitors annually. In addition to skateboarding, the park also hosts BMX competitions and concerts, as well as movie nights and overnight campouts during the summer months. The City has launched a redesign project to add 13,000 square feet to the skatepark in an effort to continue the park's success with new and fresh attractions.
